

27<sup>th</sup> March 2020

Dear families,

As we are adjusting and changing learning environments we will be adapting the way we run our Reading and Mathematics programs in Year 2. This is to support all parents and caregivers as we transition to an online learning environment.

The following links will provide opportunities for your child to read and complete Mathematics lessons at home:

**Decodable Readers**- These books can be read independently at your child's reading level.

<https://portal.flyleafpublishing.com/learners-resources/#foundational-skills-consolidation-l>

**Teach your Little Monster to Read**- This website is used for independent reading tasks and games. This links directly to our daily Letters and Sounds Program. All students will start at the same level and progress through the activities at their own pace.

<https://www.teachyourmonstertoread.com/>

**MathsOnline**- MathsOnline is an online system whereby teachers can upload weekly revision tasks and dedicate lessons based on the focus for the week. This website gives a mini tutorial video which explains to the students what the lesson is about and then it is followed up by 10 questions. Students have their log on tags stuck in their homework folders.

If you have any questions or queries, please email your child's teacher and we can discuss alternative options with you.

Kind regards,

Year 2 Teachers (Ms Ugle, Miss Riley and Miss Smith-Halvorsen)
